

Enterprise4All Carbon Reduction Plan

Supplier Name: Enterprise4All

Publication Date: 01/12/2022

Enterprise4all (North West) Ltd is committed to achieving Net Zero emissions by 2045.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2021	
Additional Details relating to the Baseline Emissions calculations.	
This is our first report on emissions and is calculated on the basis of a small office c. 600m ² within a managed workspace offering remote delivery & support provision.	
Baseline year emissions: 2021	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0.045
Scope 2	0.255
Scope 3 (Included Sources)	0.100
Total Emissions	0.400

Current Emissions Reporting

Reporting Year: 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0.040
Scope 2	0.250
Scope 3 (Included Sources)	0.100
Total Emissions	0.390

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

Remote Working for all staff

Remote Working for all Associates

Reduced travel for meetings

We project that carbon emissions will decrease over the next five years to 0.300 tCO₂e by 2026. This is a reduction of 26%

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs. Actual

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes equate to 0.39 tCO₂e, a 2.5%ge reduction against the 2021 baseline and the measures will be in effect when performing the contract

In the future we hope to implement further measures such as:

Sourcing renewable energy supply chain

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
